OMB Approval No. 1559-0046

Paperwork Burden Statement:

According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a valid Office of Management and Budget (OMB) Approval Number. This form's Approval Number is 1559-0046. Public reporting burden for this collection of information is estimated to average 20 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Community Development Financial Institutions Fund, 1500 Pennsylvania Ave, NW, Washington, DC 20220.

Freedom of Information Act (FOIA) Statement:

The CDFI Fund does not publish proprietary or confidential information submitted by CDFI's as a general practice. However, any information submitted by CDFI's in the Annual Certification and Data Collection Report (ACR) or other reports made in connection with ACR (e.g., ACR Summary Report) is subject to the Freedom of Information Act (FOIA) (5 U.S.C. 552) and other federal laws and regulations. Any information contained in this collection, including any attachments or supplements hereto, is subject to disclosure to law enforcement agencies for law enforcement purposes. In general, FOIA makes federal agency records available to the public, unless the information requested is exempt from disclosure. Trade secrets and commercial or financial information submitted by CDFI's may be exempt from disclosure pursuant to the FOIA. CDFI's should consult their legal counsel for further guidance on this matter.

The CDFI Fund reserves the right to publish responses to select questions provided during the reporting process. This information may include, but may not be limited to organization name, date certified, financial institution type, organization's address and organization's website.

CDFI Fund Annual Certification and Data Collection Report Form & Instructions¹

December 2023

Purpose

The primary intent of the Annual Certification and Data Collection Report (ACR) is to ensure that Community Development Financial Institutions (CDFI) continue to meet the requirements to be Certified CDFIs.² It is also a method to ensure that organizational information is updated annually. The reported information may be used to monitor compliance for recipients with active awards. The financial and portfolio data is used by the CDFI Fund to gain insight on the CDFI industry, but it does not impact a CDFI's Certification status or applications for CDFI Fund programs.

All Certified CDFIs are required to complete an ACR on an annual basis to maintain their Certified status as outlined in the CDFI Certification Agreement form. The ACR is due no later than 180 days after a reporting entity's Fiscal Year End or as requested by the CDFI Fund.³ ACR submission deadlines are outlined in the CDFI Certification Agreement and populated in the ACR Reporting Schedule in AMIS. Emerging CDFIs⁴ are not required to complete the ACR Form.

Overview

Please refer to these instructions for greater clarity and detail regarding what information should be included in order to respond to each question in the ACR. It is highly recommended that the reporting entity have access to the following documents/information, if applicable to the organization type, in order to accurately and thoroughly complete the ACR:

- Most recent CDFI Certification Agreement letter that describes the Certification requirements

¹ Paperwork Burden Statement According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a valid Office of Management and Budget (OMB) Approval Number. This form's Approval Number is 1559-0046. Public reporting burden for this collection of information is estimated to average 20 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Community Development Financial Institutions Fund, 1500 Pennsylvania Ave, NW, Washington, DC 20220.

² The following seven criteria are required to be certified as a CDFI:

1. Be a legal entity;
2. Have a primary mission of promoting community development;
3. Be a financing entity;
4. Primarily serve one or more Target Markets;
5. Provide development services in conjunction with its financing activities;
6. Maintain accountability to its defined Target Market; and
7. Be a non-government entity and not under the control of any government entity (tribal governments excluded).

³ While this updated version of the ACR is being released in December 2023, it will not be in effect until a new Certification Applicant completes the new Certification Application and becomes a Certified CDFI and/or a currently-certified CDFI completes the new Certification Application and retains its CDFI Certification.

⁴ An emerging CDFI is a non-certified CDFI that has received a TA award and is expected to become certified within three years.

- and provisions, including approved Target Market (TM);
- Analysis of Target Market related originations for the reporting fiscal year;
- Analysis of accountable board’s membership;
- Organization’s Balance Sheet (Statement of Financial Position);
- Organization’s Income Statement (Statement of Activities or Statement of Operations or Profit and Loss Statement); and

One of the following as applicable:

- Consolidated Reports of Condition and Income (For Banks and Thrifts only); or
- Parent Company Only Financial Statements for Small Holding Companies—FR Y-9SP (For Holding Companies only); or
- Parent Company Only Financial Statements for Large Holding Companies—FR Y-9LP (For Holding Companies only); or
- 5300 Call Report (For Credit Unions (CUs) only); or
- AITSA Call Report (For Cooperativas only).

For questions requiring a dollar amount value, the reporting entity is required to enter any dollar amounts as single dollars (0s), i.e. convert any values written in thousands of dollars (000s). For example, enter 850,000 if your call report form shows a value of 850.

All numbers related to a CDFI’s financial data must be entered as a positive whole integer, greater than or equal to zero (“>= 0”). This includes the line item for “Allowance for Loan and Lease Losses” (ALLL) listed under the “Assets” section and the line item for “Total Charge-offs” listed under the “Loan Investment Portfolio Values” section. Auditors commonly express ALLL as a contra asset and present it as a negative number on audited financial statements. In such instances, where ALLL and Total Charge-offs are negative numbers on a CDFI’s financial statements, the CDFI should convert these numbers to their absolute value (a positive number), and enter the positive number in the CDFI’s Financial Data inputs subsection of the ACR for the ALLL and Total-Charge-offs line items. If the CDFI forgets to do so and enters a negative value for ALLL and Total Charge-offs data fields, the newly implemented ACR automated validations will cause a message to pop-up about the negative value and inform the reporting entity that AMIS will convert the entered negative value to a positive value.

In instances other than line items noted above where the CDFI has a negative value expressed on its Audit or internal financial statements, CDFIs are to enter a zero (“0”) on the corresponding line item on the ACR Financial Data inputs page and then select a reason from the list of pull-down options for why the value is zero. If the actual reported value is negative, then the CDFI should select “The actual numeric value is negative.”

In an effort to better understand financial data fields where CDFIs have entered a zero value, the user will be asked to select a reason from the list of pull-down options for why the value is zero. The list of options includes:

- “This data point is not applicable to my organization’s institution type”
- “My organization’s accounting system does not track this data point”
- “The actual numeric value is negative”
- “The actual numeric value is zero”
- “Other (please describe)”

If none of the reasons listed in the pull-down menu are appropriate for why the CDFI entered zero as

their answer, then select “Other (please describe)” and provide an explanation of at least 20 characters in the open text box.

All sections of the ACR must be completed, including the related list records (Development Services Detail, Financial Data, Financial Products Portfolio Breakdown, Sources of Investment Capital, Contributing Operating Revenue, and Loans and Leases), with at least one record.

To maintain Certification, Certified CDFIs must demonstrate compliance with the Target Market percentage benchmarks each fiscal year. To confirm a CDFI continues to direct Financial Products and/or Financial Services to its approved Target Market at the required levels, transaction level data will be reviewed annually, through the submission of a TLR, in connection with the ACR. After initial certification (or recertification) through the new Certification Application and a Certified CDFI’s first two ACR submissions, a Certified CDFI that fails to meet the Target Market benchmarks, based on its Financial Products and/or Financial Services activity, over its most recently completed fiscal year may maintain its Certification by demonstrating that it met the benchmarks over a three-year period through the last day of its most recently completed fiscal year – as measured by the data submitted in the CDFI’s three most recent TLRs, including as part of its Certification Application if necessary. (A Certified CDFI that fails to meet the Target Market benchmarks for the previous fiscal year in its first ACR submission will have the option to be evaluated over a two-year period through the last day of its most recently completed fiscal year.) Certified CDFIs that still fall below the Target Market benchmarks over three full fiscal years of financing activity in their TLR (or over two full fiscal years for those with less than two years of Certification under this Application) will be decertified and no additional cure period will be granted.

NOTE: Only data submitted as part of the new Certification Application, the new abbreviated TLR and/or the December 2023 version of the CDFI/NACA/RRP TLR may be used to meet the Target Market benchmarks over a three-year period (i.e., data submitted as part of a previous Certification Application, ACR, or earlier version of the CDFI/NACA/RRP TLR, may not be used for this option).

NOTE: Do not attach documents that are not required or requested to support the CDFI Certification Criteria or Regulator attestations.

NOTE: For any ACR-related questions, please submit an AMIS Service Request with “Certification” selected from the “Program” drop-down options, “Other Reporting” selected from the “Program Topic” drop-down options, and “ACR” in the “Subject” line of the “Description Information” section.

NOTE: The Transaction Level Report (TLR)⁵ is required to be submitted and certified ahead of the ACR submission. Certain sections of the ACR are dependent upon information in the TLR; therefore, the TLR must be submitted first. For any TLR-related questions, please see the guidance provided at <https://www.cdfifund.gov/amis-reporting>. The reporting entity may also submit an AMIS Service Request with “TLR” in the “Subject” line of the “Description Information” section.

⁵ For the purpose of the ACR, all references to the Transaction Level Report (TLR) include the abbreviated TLR (for entities that are not CDFI Fund Financial Assistance (FA) award recipients with a TLR reporting requirement) and the full-length TLR (for entities that are recipients of CDFI Fund Financial Assistance (FA) awards with a TLR reporting requirement).

OBTAINING DETERMINATION FOR RESPONSIBLE FINANCING PRACTICES, SIMILAR FINANCIAL PRODUCTS, SIMILAR FINANCIAL SERVICES, DISREGARDED OR INCLUDED ASSETS/STAFF TIME, TARGETED POPULATIONS⁶, AND TARGET MARKET ASSESSMENT METHODOLOGIES

The CDFI Certification Application identifies those Financial Products, Financial Services, disregarded or included assets and staff time, Targeted Populations, and Target Market assessment methodologies approved by the CDFI Fund for purposes of CDFI Certification, as well as the standards for responsible financing practices. Approved Target Market assessment methodologies must be used exactly as outlined in the CDFI Certification Application and/or other related guidance materials, unless and until modification of the method is authorized by the CDFI Fund.

If a Certified CDFI wishes to seek consideration to include any similar Financial Products, similar Financial Services, amended standards for responsible financing practices, the ability to disregard major assets and/or staff time, Other Targeted Populations, or the use of alternative or modified Target Market assessment methodologies, it must first respond to a set of questions at the start of the ACR. For each request to be reviewed, the Certified CDFI must provide detailed information and/or justification for the CDFI Fund to review. The Certified CDFI will not be able to continue the ACR process until after the CDFI Fund renders a decision on the request. At such time when a decision is made, the Certified CDFI may continue with the ACR process and complete the TLR and ACR.

If the CDFI Fund approves new similar Financial Products, similar Financial Services, major assets and/or staff time to be disregarded or included, Other Targeted Populations, Target Market assessment methodologies, or amended standards for responsible financing practices, the CDFI Fund will publicly release information related to this change and update relevant list(s) or standards, as well as any CDFI Certification guidance materials.

Obtaining Determination to include Similar Financial Products or Similar Financial Services

Certified CDFIs seeking consideration to include Financial Products or Financial Services not currently recognized or previously approved by the CDFI Fund, as eligible for the purposes of the Financing Entity or Target Market tests, must provide the following information for the CDFI Fund's consideration in advance of completing and submitting their ACR:

- Name of proposed similar Financial Product or similar Financial Service;
- Type of proposed similar Financial Product or similar Financial Service;
- Target borrower, investee, service recipient;
- Description (e.g., rates, terms, conditions) and purpose of similar Financial Product or similar Financial Service;
- Any protections that ensure the similar Financial Product does not harm consumers;
- Evidence that consumers are not harmed (e.g., the rate of successful repayment under the original rates, terms, and conditions of the Financial Product); and
- Any additional information necessary for the CDFI Fund to consider the request.

Obtaining Determination to Amend the Responsible Financing Practices Standards

The current responsible financing practices standards allow for certain circumstances under which an otherwise disqualifying practice might serve an acceptable community development purpose. For

⁶ Targeted Population means individuals or an identifiable group of individuals meeting the requirements of 12 CFR § 1805.201(3)

example, Certified CDFIs that offer consumer loans that exceed an annual percentage rate (APR) of 36% may still be determined eligible for reaffirmation of their Certification status if certain conditions are met, such as a default rate no greater than 5%, limits on fees to refinance the loan, substantially equal loan payments that amortize to a zero balance, among other conditions. Similarly, certain otherwise disqualifying residential real estate mortgage loan characteristics are allowable for the purposes of CDFI Certification if the Certified CDFI meets additional criteria.

Certified CDFIs seeking to engage in financing activities that do not currently meet the responsible financing practices standards of the Primary Mission test, may seek amendment to the standards that allows for additional activity that serves a community development purpose. To do so, Certified CDFIs must provide the following information for the CDFI Fund's consideration in advance of an ACR submission:

- Description of the financing activity;
- Current standard that the financing activity does not meet;
- Reasons the Certified CDFI believes the financing activity serves a community development purpose;
- Any protections that ensure the financing activity does not harm consumers and/or conditions under which the financing activity should be considered an acceptable community development activity (e.g., limits on rates charged, purpose, borrower characteristics, etc.);
- Evidence that consumers are not harmed (e.g., if discussing a Financial Product characteristic, the rate of successful repayment under the original rates, terms, and conditions of the Financial Product); and
- Any additional relevant information.

The CDFI Fund will not approve individual exceptions to the Primary Mission test and any amendments to the standards for responsible financing practices will be made available to all CDFIs and future Certification Applicants.

Obtaining Determination to Disregard or Include Major Assets and/or Staff Time to Meet Financing Entity Predominance Requirements

Certified CDFIs that seek to disregard or include major assets and/or staff time not currently listed as eligible to be disregarded or included for the purpose of the Financing Entity predominance test must obtain a determination from the CDFI Fund before those assets and/or staff time may be disregarded or included for the purpose of this test.

To request consideration to disregard or include any major assets and/or staff time, Certified CDFIs must provide the following information for the CDFI Fund's consideration in advance of an ACR submission:

- A description of the major asset(s) and/or staff time to be disregarded or included;
- The dollar amount for the portion of the balance sheet line item(s) to be disregarded or included and the name of the balance sheet line item(s);
- The average FTE staff time to be disregarded or included;
- How the amount of the asset(s) and/or staff time to be disregarded or included was determined;
- If seeking to disregard any major asset(s) and/or staff time, why such asset(s) and/or staff time incorrectly appear to indicate that the Certified CDFI is not predominately a financing entity,

- If seeking to include any major asset(s) and/or staff time, why the asset(s) and/or staff time is essential for the Certified CDFI to conduct its Financial Product and/or Financial Services activity; and
- A copy of the Certified CDFI's most recently completed fiscal year income statement and balance sheet; and current fiscal year-to-date balance sheet.

Obtaining Determination for Additional Targeted Populations

Targeted Populations that are not already recognized by the CDFI Fund must be approved by the CDFI Fund before they will be included as part of an entity's Target Market for CDFI Certification purposes. To request a new Targeted Population, Certified CDFIs must provide the following information for the CDFI Fund's consideration in advance of an ACR submission:

- A name and description of the Targeted Population;
- The geographic location of the Targeted Population intended to be served (e.g., national, statewide, specific census tracts). Unless "national," include a map generated in the CDFI Information Mapping System (CIMS) depicting the geography to be served;
- A narrative demonstrating that the specific Targeted Population(s) has significant unmet capital or financial services needs;
- If the Certified CDFI serves the members of the Targeted Population directly or indirectly, or through borrowers or investees that serve such members; and
- Specific evidence showing the proposed Targeted Population has disparities, controlling for poverty and income effects, in their access to financial products and services for the geographic population service area.

If seeking recognition of a new Targeted Population, Certified CDFIs also must submit a proposed Target Market assessment methodology for the Targeted Population.

Obtaining Determination for Target Market Assessment Methodologies

A Target Market assessment methodology or combination of such methodologies must be used to verify whether Financial Products, depository accounts, board members, and/or credit union members meet the Target Market criteria.

Only those methodologies approved by the CDFI Fund may be used when compiling Target Market data. A list of pre-approved Target Market assessment methodologies can be found on the CDFI Fund website. Certified CDFIs may request separate approval of a methodology not previously approved by the CDFI Fund. Certified CDFIs that seek to use a Target Market assessment methodology other than one that appears on the list of pre-approved methodologies, including the use of programmatic proxy assessments, must provide the following information for the CDFI Fund to consider in advance of completing their ACR for submission:

- The applicable Target Market (i.e., Investment Area, Low-Income Targeted Population, or Other Targeted Population);
- Assessment methodology (e.g., description of methodology and/or model design, including the step-by-step process used to collect the data, review any documents, and/or run the model and process its results);
- Supporting or supplemental documentation;
- Description of how the proposed assessment methodology provides sufficient confidence that a transaction can be assigned to a specific Target Market;

- If proposing a programmatic proxy, the program’s detailed eligibility criteria or the step by step process used to compare programmatic data to CDFI Fund definitions (e.g., income sources, income thresholds, etc.);
- The process for record keeping; and
- The process for updating any methodology dependent on underlying data changes.

Certified CDFIs may attach documents that provide a fuller description of the proposed assessment methodology than what is allowed by the online form’s character length restriction on answers.

All Target Market assessment methodologies – whether from the list of pre-approved methodologies or allowed to present separately – must be used exactly as prescribed, unless and until modification of the process is authorized by the CDFI Fund. Failure to use an approved assessment methodology (or maintain required documentation) may result in the termination of a Certified CDFI’s certification.

Use of Call Report Data from Regulators (Applicable only to Banks, Holding Companies, Thrifts, and Credit Unions)

Regulator quarterly call report data is used to pre-populate certain financial data fields on the ACR form.

For Banks and Thrifts, the affected ACR data fields are as follows:

- Unrestricted Cash and Cash Equivalents
- Average Assets
- Allowance for Loan and Lease Losses Reserve
- Total Assets
- Total Liabilities
- Tier 1 Capital
- Interest Income
- Interest Expense
- Total Charge-offs
- Total Recoveries
- Loans 90-Days or More Past Due
- Other Real Estate Owned
- Provision for Loan Losses
- Total Equity
- Total Revenue
- Operating Expenses
- Total Expenses
- Troubled Debt Restructuring

For Credit Unions, the affected ACR data fields are as follows:

- Allowance for Loan and Lease Losses Reserve
- Total Assets
- Total Net Worth
- Subordinated Debt included in Net Worth
- Interest Income

- Total Liabilities
- Interest Expense
- Total Charge-offs
- Total Recoveries
- Loans 60 Days or More Past Due
- Unrestricted Cash & Cash Equivalents
- Current Assets
- Current Liabilities
- Earned Revenue
- Operating Revenue
- Total Revenue
- Provision of Loan Losses
- Operating Expenses
- Total Expenses
- Total Financing Capital
- Total Value of Non-Performing Assets
- Other Real Estate Owned
- Troubled Debt Restructuring

For Holding Companies, the affected ACR data fields are as follows:

- Operating Revenue
- Interest Expense
- Operating Expenses
- Total Assets
- Allowance for Loan and Lease Losses Reserve
- Unrestricted Cash and Cash Equivalents
- Total Liabilities
- Interest Income
- Provision for Loan Losses
- Total Charge-offs
- Total Recoveries
- Total Equity
- Loans 90-Days or More Past Due

Currently, Cooperativas⁷ will not have any pre-populated financial data fields in the ACR.

When the reporting entity opens the Financial Data section, the reporting entity will see the financial data fields listed above as grayed out. After the reporting entity enters the financial data into all the other data fields and hits “Save,” the reporting entity will be able to view the pre-populated data fields and verify whether the values pulled from the call report data are accurate.

If there are values in the pre-populated data fields that are incorrect, the reporting entity will indicate this by answering “No” to the “Regulator Attestation” question on the ACR Certification Detail Section. If the reporting entity answers “No” to the “Regulator Attestation” question, the reporting entity must

⁷ Cooperativas are defined as any credit union located in Puerto Rico and regulated by COSSEC.

also check the box that the reporting entity acknowledges the review of the ACR submission may be delayed if the reporting entity selects “No” to the “Regulator Attestation” question and fails to attach supporting documentation. The “Related Attachments” section of the ACR should be used to submit any supporting documentation for the requested value changes. As part of the ACR review process, CDFI Fund staff will review the submitted documentation and decide if it supports the requested changes. Please provide a detailed answer/note explaining which data fields are incorrect and why as well as what the correct values should be. An example of such a complete explanation can be found below:

The prepopulated AMIS ACR Financial Input tables is picking up the wrong net worth account number which causes the balance sheet to be out of balance, and an orange flag to show up in the financial data for total assets.

The 5300 has the net worth that balances the balance sheet and an adjusted net worth that is used to calculate the net worth ratio. Your tables are picking up Acct_997, which is the net worth account that is used to calculate the net worth ratio.

In order for the balance sheets to balance you must add the following accts to get total net worth: Acct_940, Acct_931, Acct_668, Acct_658, Acct_658A, Acct_996, Acct_945B, Acct_945A, Acct_EQ0009, Acct_945C, Acct_602.

Please see the below call report for correct numbers to calculate the actual net worth. Please note the differences of the balance sheet net worth and the adjusted net worth for the calculation of the net worth ratio.

Actual Net Worth:	\$ 19,585,662.00
Adjusted Net Worth (populated in the report):	\$21,291,146.00

An organization may be asked to provide additional documentation. CDFI Fund staff will make the approved data changes directly in AMIS. After an organization receives their ACR certification reaffirmation notice, the reporting entity may go in and review their submitted ACR to verify the changes were entered correctly. If there is an error, the reporting entity must submit an AMIS service request detailing the error and the appropriate correction.

If an organization’s ACR does have errors in the financial data fields pre-populated from regulator data, we encourage the organization to contact the appropriate regulatory agency and alert them to the data errors so the regulatory agency can take the appropriate steps to make corrections for future public data releases.

NOTE: The financial data section will not be pre-populated with the regulator call report data until the regulator releases it to the public. This typically occurs 2 to 2.5 months after the end of the quarter. The CDFI Fund will send an email to each reporting entity’s key contacts⁸ alerting them to when the call report data has been added to a reporting entity’s ACR. Once someone in the reporting entity receives the email, the reporting entity can complete the ACR financial data section and submit its ACR. **PLEASE**

⁸ ACR Reporting Schedule notifications and other ACR-related emails are sent to individuals identified as “Active” with a “Type” field value of “Authorized Representative” or “Point of Contact” as listed in a reporting entity’s AMIS Organization Detail page’s “Contacts” section.

DO NOT SUBMIT AN ACR BEFORE THE FINANCIAL DATA SECTION PRE-POPULATION OCCURS!

NOTE: Be aware that some of the validation rules and indicator flags discussed later in the “Financial Data” section will not be in effect for the pre-populated financial data fields and the other financial data fields with which they may have a validation relationship.

NOTE: The regulator call report data is being pre-populated based on the RSSD ID that the CDFI Fund has on record for the reporting entity in its organizational profile in AMIS. If this unique identifier is inaccurate, then our system will load the incorrect data values for the regulated entity. Please be sure to keep this data field as up-to-date as possible.

To create and submit a CDFI Certification Report:

1. After logging into AMIS, the reporting entity will see the AMIS Organization Detail page. From the Organization Detail page, click the **Certification** related list. The link will direct the reporting entity to the **Certification** section found toward the bottom of the page. Another option is to scroll down to the **Certification** section on the Organization Detail page.
2. From the Certifications section, click the **Certification Name** link. The organization’s Certification control number will display (XXXCEXXXXXX) as the Certification Name. If an organization has one or more **Certification Name** entries listed, be sure to select the entry that displays “CDFI-CERT” as the **Certification Type** and “Certified” as the **Certification Status**.
3. Click the **CDFI Annual Certification Report** related list. Select the **New CDFI Annual Certification Report** button to complete the required information.

Attachment(s)

1. From the CDFI Certification Report Detail Page, click the **Related Attachments** link.
2. Select the Add Related Attachments button to add related attachment records.
3. Select the **Browse** button to upload an attachment.
4. Select the **Type** of attachment from the drop-down menu.
 - a. The types of attachment include **Pre-determination documents, Legal Entity Documentation changes, Regulator Attestation Documentation, and Other.**
5. Enter a brief description of the attachment in the description field.
6. Select the **Attach File** button to attach the document.
7. The reporting entity will be forwarded to the CDFI Annual Certification Report Detail page.
 - a. Multiple attachments can be added, if needed, by repeating the steps in this section.

NOTE: Additional resources on the ACR can also be obtained by visiting the CDFI Fund’s [Certification Reporting webpage](#).

The following sections include specific guidance, questions, and data points for reporting entities to complete the Annual Certification and Data Collection Report in AMIS. The ACR contains conditional questions that will appear in AMIS only for those reporting entities to which the questions apply, based upon financial institution type and/or responses to other questions. In this document, which is for illustrative purposes only, such questions are generally identified and/or appear nested below the questions to which they apply.

Section I: CDFI Annual Certification Report Detail

The ACR requires the reporting entity to verify, update, and correct organization profile information. To update some of the data in this part, an authorized organization account administrator must access the organization’s organization profile in AMIS. This is an opportunity to verify, on an annual basis, that the organization contact information is accurate and that there have been no changes to the authorized account administrator(s) who should have access to the organization’s account.

NOTE: The dollar amount and count of Financial Product portfolio activity to the Target Market does not affect a reporting entity’s ability to maintain its CDFI Certification status. The CDFI Certification Criteria attestation section, including the Target Market Criteria attestation, is based on the number and dollar amount of Financial Product originations during a reporting entity’s most recently completed fiscal year as reported in the required TLR submission. A Certified CDFI that fails to meet the Target Market benchmark over its most recently completed fiscal year may maintain its Certification by demonstrating that it met the benchmark over a three-year period through the last day of its most recently completed fiscal year.⁹

Section 3: Financial Data Detail

The financial data gathered in this section of the ACR will be used by the CDFI Fund to gain insight on the CDFI Industry. The Financial Data Related List must have ONLY one financial data record for each reporting year.

After selecting the “New Financial Data” button, a new screen will appear asking the reporting entity to select the appropriate financial data record type. The default “Record Type of New Record” shown is based on the “Financial Institution Type” and “Tax Status” or “Organization Structure” of the reporting entity as recorded in the AMIS organizational profile. If the default record type shown is correct, click the “Continue” button and proceed with answering the financial data questions.

If the default record type shown does not reflect the reporting entity’s actual financial institution type and tax status, then click on the “Cancel” button and submit an AMIS service request requesting the “Financial Institution Type” and “Organization Structure” fields in the organization’s AMIS “Organization Detail” profile be updated to reflect the correct information. Once the requested changes have been made, the reporting entity may then go back into the ACR and click on “New Financial Data” button to start the Financial Data section of the ACR.

For reference, there are five record types available:

- Bank or Thrift
- Depository Institution Holding Company
- Credit Unions
- Loan Fund and Venture Capital – For-Profit
- Loan Fund and Venture Capital – Non-Profit

Having the correct institution type shown on the screen ensures that the reporting entity will receive the financial data questions appropriate for the institution type.

The reporting entity will also see reminder language about how to deal with negative and zero values for the financial data fields at the bottom of the “Select Financial Data Record Type.”

In an effort to improve data quality, as well as gain a greater understanding of a CDFI’s financial position, the reporting entity will now see additional data validation rules, as well as opportunities to explain particular data values. These validation rules will analyze the answers as the reporting entity enters each required financial data field, so the reporting entity may see a warning message appear after the reporting entity answers one question, which may then disappear or remain depending on how the reporting entity answers a subsequent question. Once the reporting entity completes entering and saving its data, an error message may appear at the top of the screen indicating all of the financial data fields where entered values should be changed in order to finish the “Financial Data” section of the ACR. However, if a reporting entity does not want to change the entered value, the reporting entity, depending on the data field in question, will need to provide an explanation of at least 20 characters for why the entered value is correct, or select an answer from a dropdown menu selection.

Data Field	Validation Rule
Loans 90 Days or More Past Due	Loans 90 Days or More Past Due < = Total Value of Non-Performing Assets
Other Real Estate Owned	Other Real Estate Owned < = Total Assets

Once the reporting entity has addressed any error messages that appeared upon clicking the “Save” button for the first time and hits the “Save” button for a second time, a window will appear showing the reporting entity-entered data, along with a series of indicator flags for certain data fields. A flag’s color will appear as either green or orange depending on whether the reporting entity’s entered data meets the data field’s validation. Green flags indicate the validation has been met, while orange flags offer a warning that the validation has not been met. It is at the reporting entity’s discretion to change the relevant data field values in order for the orange warning flag to change to a green flag. The indicator flags are:

- Current Assets Indicator –
 - Current Assets is over the max threshold which is $50 \times \text{Total Liabilities}$

The restructuring of a loan or other debt instrument (hereafter referred to collectively as a "loan") may include, but is not necessarily limited to: (1) the transfer from the borrower to the institution of real estate, receivables from third parties, other assets, or an equity interest in the borrower in full or partial satisfaction of the loan ..., (2) a modification of the loan terms, such as a reduction of the stated interest rate, principal, or accrued interest or an extension of the maturity date at a stated interest rate lower than the current market rate for new debt with similar risk, or (3) a combination of the above. A loan extended or renewed at a stated interest rate equal to the current interest rate for new debt with similar risk is not to be reported as a TDR. Modifications of loans should be evaluated to determine if a TDR exists in totality. In some instances a borrower may have been able to add additional collateral or a guarantor to a loan which fully compensates for a concession made by the institution."²¹</p> <p>For Credit Unions, they should report troubled debt restructured loans (as defined in GAAP) as delinquent consistent with the original loan contract</p>

Section 5: Source of Investment Capital Table

The objective is to gather important data on how CDFIs capitalize themselves. This table documents sources of capitalization. The Source of Investment Capital Table must have at least one investment source entry. Reporting entities shall enter all loan or investment capital as of the last day of their most recently completed fiscal year. Loan or investment capital is defined as:

- Idle capital available to lend/invest, as well as deployed capital.
- Only capital that is reflected in the reporting entity's Balance Sheet.
- Exclude undrawn lines of credit.
- If the reporting entity makes Grants, exclude funds used for such Grants.
- For Venture Capital Funds, record all paid in capital. Committed capital is excluded.²²

Completing the Table:

Use one row in the Table for each distinct Source of Capital with the same Type of Capital, Interest Rate, and Maturity Date. AMIS will calculate the weighted average interest rate and remaining term and display it in the Investment Capital Summary Table.

Be Efficient / Combine Rows: If the Organization has 3 or more investments from a single Source of Capital and Type of Capital, the user may enter these investments as a single row.

- The user may calculate the weighted average Interest Rate.
- The user should select the "Multiple Dates" checkbox when there is more than one origination date and/or maturity date.

*For example, if the Organization has 3 loans from 3 different banks, the User may enter a single row for Bank or Other Regulated Financial Institution as the "Source of Capital," Debt-Other as the "Type of Capital," and enter the calculated **weighted average interest rate** of the 3 loans and select "Multiple Dates" for the Origination Date and Maturity Date.*

²² Committed capital is excluded for Venture Capital Funds because it is considered part of off-balance sheet resources committed to the reporting entity for lending/investing.

	Capital, the reporting entity may enter these investments as a single entry.
Amount	<p>Enter the amount of lending/investing capital remaining as of the last day of the reporting entity's most recently ended fiscal year.</p> <p>NOTE: For Loans, enter the outstanding principal balance as it appears in the Balance Sheet or Statement of Financial Position.</p> <p>NOTE: Must be Numeric Value.</p>
Interest Rate	<p>For each entry, if the Type of Capital is Deposits, Debt-EQ2, or Debt, enter the interest rate.</p> <p>Enter the percentage as a whole number (e.g. if the Interest Rate is 2.0%, enter "2.0")</p> <p>NOTE: If the Type of Capital is Debt, enter the Interest Rate.</p> <p>NOTE: If the Interest Rate is variable, provide the Interest Rate in effect at the end of the last day of the reporting entity's most recently ended fiscal year.</p> <p>NOTE: If the Type of Capital is Deposits, the reporting entity may either enter the weighted average interest of all deposits OR enter Not Applicable.</p> <p>NOTE: If the Type of Capital is Equity, Net Assets, or Debt-EQ2, AMIS will generate the Interest Rate as Not Applicable.</p> <p>NOTE: The reporting entity may calculate the weighted average interest rate.</p>
Origination Date	<p>Enter the origination date if applicable.</p> <p>NOTE: Enter "Not Applicable" if the type of capital does not have an origination date.</p>
Maturity Date	<p>For each entry, if the Type of Capital is Deposits, Debt-EQ2, or Debt, enter the Maturity Date (MM/DD/YYYY) at the end of the last day of the reporting entity's most recently ended fiscal year if applicable.</p>

REPORT ITEM	INSTRUCTIONS
	<p>NOTE: Enter “Not Applicable” if the Type of Capital does not have a maturation date.</p> <p>NOTE: If the Type of Capital is Deposits, the reporting entity may select Not Applicable.</p> <p>NOTE: If the Type of Capital is Equity Investment or Net Assets, AMIS will prefill the Remaining Term data field as Not Applicable.</p>
Remaining Term	<p>AMIS will calculate the Remaining Term (in months) based on the Maturity Date, if applicable.</p> <p>NOTE: If the Type of Capital is Equity, Net Assets, or Debt–EQ2, AMIS will generate the Remaining Term as Not Applicable.</p>
Multiple Dates	<p>Does the capital entry have more than one origination date and/or maturity date?</p> <p>Yes No</p> <p>A “Yes” answer means the reporting entity has more than one origination date and/or maturity date for an entry because it is a combination of three or more investments from a single Source of Capital and Type of Capital entered by the reporting entity as a single entry.</p>

NOTES for Completing the Table:

Net Assets (*Type of Capital*): All, or a portion, of an Organization’s Net Assets is usually used for Investment Capital. Typically, this includes all Permanently Restricted Net Assets, and may include all, or a portion, of Unrestricted Net Assets. If the Organization’s Balance Sheet includes a line item for “Net Assets Restricted for Lending/Investing,” include a row for Net Assets in the Investment Capital Table.

Internal Funds (*Source of Capital*): Use “Internal Funds” as the Source of Capital for for-profit and credit union retained earnings. For non-profits, use “Internal Funds” as the Source of Capital for net assets derived from earned income and any net assets whose source cannot be identified. The Type of Capital for all “Internal Funds” is “Net Assets - Other OR Retained Earnings.”

Example: Two years ago, the Organization received a \$100,000 grant from the ABC Foundation. If the Organization did not track the grant separately and therefore cannot distinguish its balance from other net assets, then it should be categorized as "Net Assets - Other OR Retained Earnings." If the Organization did track the grant separately and knows the balance, it should be categorized as "Net Assets - Grants."

Debt - EQ2 (*Type of Capital*): If debt is not identified as an Equity Equivalent Investment (EQ2) in the Organization's Financial Statements, it is most likely not an EQ2 and should be categorized in CIIS as Debt - Other. An EQ2 must be a loan to a CDFI that meets the following characteristics:

1. At the end of the initial term, the loan must have a definite rolling maturity date that is automatically extended on an annual basis if the CDFI borrower continues to be financially sound and carry out a community development mission.
2. Periodic payments of interest and/principal may only be disbursed from the CDFI borrower's available cash flow after satisfying all other obligations.
3. Failure to pay principal or interest (except at maturity) will not automatically result in a default of the loan agreement.
4. The loan must be subordinated to all other debt except for the equity-equivalent like loans.

For Banks/Thrifts:

Total Deposits must be less than or equal (< or =) to "Total Deposits in Domestic Offices" (RCON2200).

The sum of Deposits from the following Sources of Capital (CDFI Intermediary, all Corporation Sources, Individuals, all Non-Depository Financial Institution sources, all Philanthropic sources, and Religious Institution) should be less or equal (< or =) to "Deposits of Individuals, Partnerships, and Corporations" (RCONB549) + (RCONB550).

Total Deposits from all "Government – Federal Other Sources" should be less than or equal (< or =) to "Deposits of U.S. Government" (RCON2022) + (RCON2520).

Total Deposits from "Government – State or Local" should be less than or equal to "Deposits of States and political subdivisions in the U.S" (RCON2203) + (RCON2530).

Total Deposits from "Banks or other Regulated Financial Institutions" should be less than or equal to "Deposits of. Commercial banks and other depository institutions in the U.S." (RCONB551) + (RCONB552) plus (+) "Deposits of Banks in foreign countries" (RCON2213) + (RCON2236)

Total Deposits from "Other" should be greater than or equal to "Deposits of Foreign governments and official institutions (including foreign central banks)" (RCON2216) + (RCON2377).

Total Debt must equal Total of “Other borrowed money” (includes mortgage indebtedness and obligations under capitalized leases) (RCON3190).

For Loan Funds:

Total Investment Capital must be > or = Gross Loans Receivable on Balance Sheet.

Total Debt must be < or = Total Debt on Balance Sheet. This debt often consists of notes/loan payables and can usually be found on the balance sheet. Financial statement notes should indicate the source, term, origination date and maturity date.

Total Net Assets must be < or = Total Net Assets on Balance Sheet.

Net Assets Restricted for Lending must be included if the Balance Sheet includes a line item for Net Assets Restricted for Lending.

Affiliate Rule: INCLUDE capital received from affiliates/subsidiaries that is designated for lending/investing.

If Recoverable Grants are booked as a liability on the Balance Sheet only, then they must be included in the table.

Use the financial statements notes to verify sources, interest rates, origination dates, and maturity dates. (For origination and maturity dates, if the financial statement notes provide the origination and/or maturity year but not month, enter the year and leave the month as is.)

For maturity date – If loan/investment is renewable, enter established maturity date (not potential renewal maturity date).

For maturity date – An ‘Affiliate loan payable’ that does not have a maturity date is classified as an ‘evergreen loan’ and may be included in the Investment Capital table if necessary. The maturity date for an ‘evergreen loan’ should be entered as 100 years after the origination date.

For EQ2 make sure each EQ2 instrument meets the following conditions. If it does not, it is not EQ2 and should be changed to Debt-Other.

- At the end of the initial term, the loan must have a definite rolling maturity date that is automatically extended on an annual basis if the CDFI borrower continues to be financially sound and carry out a community development mission.
- Periodic payments of interest and/principal may only be made out of the CDFI borrower's available cash flow after satisfying all other obligations.
- Failure to pay principal or interest (except at maturity) will not automatically result in a default of the loan agreement.
- The loan must be subordinated to all other debt except for the equity-equivalent like loans.

Investment Capital Summary Table

AMIS will calculate and display the Investment Capital Summary Table based on information entered in the Sources of Capital Table, including the weighted average interest rate and remaining term. Each reporting entity should:

- Review the Investment Capital Summary Table for accuracy.
- Compare the Investment Capital Summary Table to the Organization's Financial Statements.
- If any information is incorrect, modify the data as appropriate.

NOTE: For Banks, Total Investment Capital should be equal to or greater than “Total loans and leases held for investment and held for sale” (RCO2122) from the FFIEC Call Report.

Total Investment Capital >= Gross Loans Receivable and Equity Investments (as reported in the Organization’s Financial Statements)

Total Equity <= Shareholder’s Equity (for-profit Organizations) **OR Total Equity** (nonprofit Organizations) (as reported in the Organization’s Financial Statements)

Total Debt <= Total Liabilities (as reported in the Organization’s Financial Statements)

Total Net Assets <= Total Net Assets (as reported in the Organization’s Balance Sheet)

For Banks, Total Investment Capital should be equal to or greater than “Total loans and leases held for investment and held for sale” (RCON2122) from the FFIEC Call Report.

Section 6: Contributed Operating Revenue Table

The objective is to gather important data on how CDFIs manage their operating revenues. This table documents the sources of operating revenues. For venture capital funds, all income questions pertain to the investing entity(ies). The Contributed Operating Revenue Table must have at least one revenue source entry.

Enter all contributed operating revenue as described below:

- Include unrestricted operating Grants and contributions.
- Include Net Assets released from restriction during the reporting period if they are available to cover Operating Expenses and the original source was not Earned Income. **NOTE:** Exclude Net Assets released from restriction if the reporting entity knows that the original source was Earned Income.
- Include the estimated value of in-kind contributions, in-kind donations, and donated services that are included in the reporting entity's Financial Statements.
- Exclude Equity, Grants, contributions, and donations designated for lending/investing capital.
- Exclude temporarily restricted Grants intended for future operating periods.
- Exclude Grants that will be passed through to other organizations.

Amount	<p>For each row, enter the Amount that was available for Operating Expenses for the reporting entity’s most recently ended fiscal year.</p> <p>NOTE: Must be a numeric value.</p> <p>NOTE: The data field is asking about “available” so enter the full amount whether all of it was used or not.</p>

NOTES for Completing the Table:

Use one row in the Table for each Type of Donor. For example, if the reporting entity has received 3 grants from 3 different foundations, create a single row for “Philanthropic Organization – Foundation” and enter the sum of the grants.

Banks

This will usually be zero.

If the response is not zero, it is most likely from less than or equal (< or =) to the “Other noninterest income” (RIADB497).

Simulated Table with completed information for a bank – actual display in AMIS may differ

Type of Donor	Amount
Total	\$13,500
Government - Federal - CDFI Fund	\$13,500

Credit Unions

This will usually be zero.

If the response is not zero, it may be reflected in “Other Non-Interest Income” (440), so the Contributed Operating Revenues value must be less than or equal (< or =) to it.

Some credit unions do not record grants as Contributed Operating Revenue; rather they use them to offset costs and simply report the lower cost on their Call Report form.

Simulated Table with completed information for a credit union – actual display in AMIS may differ

Type of Donor	Amount
Total	\$695,332
Government - Federal - CDFI Fund	\$659,032
Government - State or Local	\$36,300

Loan Funds and Other Non-Regulated Institutions

Equals Unrestricted Grants + Unrestricted Contributions + Unrestricted Net Assets Released from Restrictions + In-kind Donations + In-kind Contributions + Donated Services

EXCLUDE equity or grants designated for loan capital.

EXCLUDE grants that will be passed through to other organizations.

Affiliate Rule: INCLUDE unrestricted grants/contributions/in-kind donations received from affiliates/subsidiaries.

When Net Assets are released from restriction there should be a corresponding increase in unrestricted net assets (offset) and *both* of these transactions should be obvious on the Income Statement. If not, still INCLUDE the net assets released from restriction in non-operating revenue and the increase in unrestricted net asset released in contributed operating revenue.

Generally assume that any Net Assets Released from restriction is contributed revenue. However there have been a few instances where net assets released from restriction were general company assets and not contributed revenue.
